SUMMARY

Full Stack Web Developer with a background in Psychology and life-long dedication to learning. Effective at combining creativity and problem solving to develop attractive, accessible, and user-friendly applications. Excited to be seeking an entry-level web developer position.

TECHNICAL SKILLS

Languages: HTML5, CSS, Javascript, JQuery

Technologies: MongoDB, Express, Handelbars.js, Bootstrap, NodeJS, NPM, JSON, AJAX, MySQL, ReactJS, RESTful API, GitHub, Heroku, Netlify, AWS, Mongoose

PROJECTS

My-Mini-Gallery | <https://github.com/kodiakshuksan/My-Mini-Gallery> | <https://my-mini-gallery.herokuapp.com>

A web application that allows users to discover, view, and share artwork with each other online. The goal is for artists to use this website to build up a portfolio and then be able to communicate with other creative minds, get feedback, and build a fan-base.

- Used npm package react-photo-gallery to build Gallery component, collaborated with a team of 5, remotely using zoom, used Git workflow to plan, design, write and deploy prototype application.
- HTML, CSS, JavaScript, Adobe, Restful API, ReactJS, MongoDB, Mongoose, AWS, various NPM packages, Heroku

Budget Tracker | <https://github.com/kodiakshuksan/BudgetTracker> | <https://still-eyrie-45509.herokuapp.com/>

Keep track of your debits and credits online and offline.

- Incorporated agile development process to debug and maintain code, created database and deployed application to Heroku
- Used 'IndexedDB' to cache dynamic content i.e. user's inputs for withdrawals or deposits
- HTML, CSS, JavaScript, Adobe, Restful API, MongoDB, Sequelize, Heroku, IndexedDB

Meal Planner | <https://github.com/kodiakshuksan/MealPlanner> | <https://kodiakshuksan.github.io/MealPlanner/>

Plan all your meals and cocktails a week ahead and save your recipes so you can use them throughout the week!

- Implemented Luxon time/date library, researched possible free databases to use, created presentation using Adobe, presented application
- Worked collaboratively with a team using Agile development techniques and Scrum development processes
- HTML, CSS, JavaScript, Adobe, REST API, MealPlannerDB, luxon

Ody App | <https://github.com/kodiakshuksan/odiApp> | <https://kodiakshuksan.github.io/OdyApp/>

Converts your dog's age in human years into dog years

- An individual freelance project: Worked directly with customer to generate software requirements, architecture and design development, source code and unit test
- Designed, developed, debugged and deployed; working through all phases of the software development lifecycle
- Analyze user/business needs and functionality to plan and design software systems to meet these needs.
- Perform software updates, refinement, testing and debugging
- HTML, CSS, JavaScript, Adobe, Jest
